

PETITION

We, the undersigned residents and occupants, have studied the attached map showing the proposed Residential Only Parking (ROP) ordinance area, understand the proposed parking ordinance and definitions, and do hereby indicate whether we “Support “or “Do not Support” the proposed parking change.

Whereas, West Avenue residents are facing a severe lack of adequate parking curbside for themselves and their visitors due to non-resident and commuter motorist parking, thus causing residents to park in distant or unsafe areas .

Whereas, due to the parking congestion in both evening and weekend hours, residents have experienced a decreased quality of life, and an increase in vandalism, theft, and destruction of personal property.

Whereas, the residents desire to restore and maintain the vitality of the family oriented neighborhood and sustain the desired property values of the West Avenue area.

We, the undersigned, do hereby certify that we reside/own property at the address described below following each name. We respectfully petition the City of Richmond Parking and Traffic Officials to designate West Avenue a Residential Only Permit Parking area as mapped to abate the nuisance created by the current parking program. The residents in favor of the designation are requesting a Residential Permit Parking area that restricts parking along the three blocks of West Avenue (bounded by the East by N. Harrison St. and the West by Lombardy Ave.) on both sides of the street, to residents and their visitors only by annual permit.
